Flexibility Take Full Advantage Of Your System

The KX-T7700 series includes 5 telephone models and one DSS console, all available in white and charcoal/black, providing numerous options to suit each individual's needs and budget. The KX-T7720, KX-T7731, KX-T7740 and KX-T7750 are all designed for use with the Panasonic KX-TA824, KX-TDA50, 100, 200, 600 and KX-TAW848, allowing you to upgrade the system without changing out the telephones. The top of the line, 24-button, 3-line backlit display and keypad KX-T7736 and KX-T7737 telephones were designed to work exclusively with our KX-TA824 and KX-TAW848 systems.

Programmable CO and Feature Buttons

Each of the four telephone models in this series are equipped with 24 programmable buttons that can be programmed for one touch access to features and automatic dialing. In addition, 12 of the 24 programmable buttons are also equipped with LEDs and can be programmed to direct select a Central Office line or a Direct Station Select (DSS)/Busy Lamp Field (BLF).

Auto-Answer Speakerphone

An Auto-Answer Speakerphone is a valuable asset when it comes to increasing efficiency. Featured on the KX-T7720, KX-T7731, KX-T7736 and KX-T7737, this handy speakerphone lets you set the phone for automatic hands-free answering of intercom calls. The phone will no longer be an annoying interruption! You can now take calls without putting your work on hold.

Lighted Keypad for Dialing

The KX-T7731, KX-T7736 and KX-T7737 have lighted keypads for dialing, perfect for use in entertainment rooms, bedrooms, art gallery rooms or in other low-lighted areas.

Name and Number Caller ID¹

When connected to a KX-TA824 or Advanced Hybrid System equipped for Caller ID¹, the KX-T7736's 3-line backlit LCD display will show the outside caller's name and number simultaneously. The KX-T7731 has a 1-line LCD display, which will show the caller's name and number alternately.

Multi-Purpose, Backlit, Alphanumeric Display

The KX-T7731, KX-T7736 and KX-T7737 both feature a backlit LCD display. The display shows the time, day, month, dialing number and call duration of external calls. On intercom calls the caller's extension will appear on the LCD display before the phone is answered.

Talking Caller ID¹

Announces who's calling, allowing you to screen your calls without being near the handset.

Other Outstanding Features:

- The base can be adjusted to two different positions for ease of use on the desk, or it may be mounted on the wall.
- All models are equipped with a 2.5mm headset jack.
- The KX-T7731, KX-T7736 and KX-T7737 have a navigation key to adjust the LCD contrast, handset/headset volume and speaker volume.

Additionally, all Panasonic KX-T7700 series phones come with a euro-style handset. Sleek and stylish with a low-profile design, this type of handset is comfortable and easy to use. For an efficient communications system with the flexibility to adapt as your needs change, choose Panasonic KX-T7700 series phones.
